DETAILED ACTION

Election/Restrictions

The invention is drawn to many different compounds which are encompassed by the claimed structure. The compounds vary distinctly in their specific structures, reactivity and functions. Thus, an individual search is required of each individual compound. Since thousands of compounds are encompassed by the claimed structure there is simply too many species to search. Therefore, the examination of the compounds will be limited to the compound already elected by applicant as is of record. This requirement is not to be taken as an election of species, but rather as an election of a single invention, since each compound is assumed to be a patentably distinct invention, in the absence of evidence to the contrary.

Claims 18, 19 and 22 remain withdrawn from further consideration by the examiner as being drawn to non-elected subject matter.

Thus, the restriction requirement is made FINAL.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
